

A Wife-Murderer Makes his Sons Bury the Victim, and Plovers over the Grave.

PORT WYATT, October 30.—A most horrible murder, committed nine miles south of Lima, Ohio, has just come to light. A man named Andrew Brentlinger murdered his wife near his house, on Monday afternoon about 2 o'clock, by stabbing her eight times in the breast and four times in the abdomen. He threatened the lives of his children if they informed on him, and by his directions two of his sons buried the body near the house, and then in order to remove all traces of the grave, plowed and harrowed over the spot.

Yesterday his children told some of their neighbors of the affair, and an examination was immediately made which revealed the crime in all its horrible nature. Brentlinger has since confessed, and is now confined in the Lima jail. His trial will probably take place at the present term of the court. The age of the murderer is fifty-two; that of his victim but twenty-five. She was his second wife. He claims to have murdered her on account of her being too intimate with a neighbor.

Our Mother.

Round the idea of one's mother, the mind of a man clings with fond affection. It is the first deep thought stamped upon our infant hearts when yet soft and capable of receiving the most profound impressions, and the after feelings of the world are more or less light in comparison. Even in our old age, we look back to that feeling as the sweetest we have through life. Our passions and our willfulness may lead us far from the object of our filial love; we learn even to pain her heart, to oppose her wishes, to violate her commands; we may become wild, headstrong and angry at her counsels or opposition; but when death has stilled her monitory voice, and nothing but still memory remains to recapitulate her virtues and good deeds, affection, like a flower beaten to the ground by a past storm, raises up her head and smiles among her tears. Round that idea, as we have said, the mind clings with fond affection; and even when the early period of our life forces memory to be silent, fancy takes the place of remembrance, and twines the image of our dead parent with a garland of graces and beauties and virtues which we doubt not she possessed.

Dr. M. Lytle's Elixir!

FOR THE CURE OF

Diarrhea, Dysentery, Bloody Flux,

CHOLERA MORBUS, PAINFUL PURGING, SUMMER COMPLAINT, CRAMP AND COLIC.

The want of a medicine of this character has long been felt by the community, and has induced the proprietors, by over thirty years' trial in private, to introduce it for the benefit of the public as a staple family medicine. It does not act as an astringent alone, but by reducing the seculity of the seceding membranes of the bowels, reduces the inflammation, hence performs a thorough cure.

The proprietors take the liberty of stating to the public, that no more perfect receipt (which is guaranteed for the cure of the above-named diseases) exists in the world, being entirely vegetable and containing no sugar of lead or other noxious drug or mineral. And they would further say that the preparation has met the hearty approval of numerous physicians who have used it.

DIRECTIONS:

To adults, a tablespoonful after each passage, or four times a day. To children under ten, a half-teaspoonful is required. To children under five, a teaspoonful. To children under two or three, a half-teaspoonful, as required, and by carefully administering as directed it will never fail.

Hart's Magnolian Cough Drops!

PRICE PER BOTTLE 25 CENTS.

This medicine can confidently be recommended for all diseases of the Throat, Bronchial Tubes and Lungs. It is invaluable as a remedy for Coughs, Colds, Whooping Cough, Hoarseness, Influenza, Diphtheria, Bronchitis, Hoarseness, Croup, Whooping Cough, Asthma and Spitting of Blood. It does not profess to cure consumption, but from the largely delectable and balsamic character of the ingredients of which it is composed, it is claimed that it will do all for this dire disease that any Cough Medicine can do.

This medicine contains NO OPIUM, or other ingredient of a deleterious character, and may be given with the utmost confidence and safety in every stage of the disease and to patients of every age. Does from ten drops to a teaspoonful, according to the age of the patient, and repeated in every instance as the urgency of the case requires, in one, two, three or four hours.
